

*One action is all it takes.
And there's still time.*

We know life is busy—and sometimes making a decision takes time. **We're reaching out because we believe that even one small action can add up to something powerful.** It's the first day of Earth Month Ecochallenge – and you still have time to register! If you've been meaning to sign up, **consider this your invitation to take just one Action this April.**

Because even one new habit – like Keep My Community Clean and taking a walk to pick up trash, or Support Local Businesses and investing in your local economy — **adds up when thousands of us are doing it together.**

Join thousands of people who are already planning to take control of their impact. It's simple, it's focused, and it's all about taking one step toward a more sustainable future.

EARTH MONTH ecochallenge

APRIL 1-30, 2025

**EMPOWERING
THE NEXT
GENERATION**

*Championing Changemakers:
Empowering the Next Generation*

Today's youth are tomorrow's environmental leaders—and the choices we make now will shape the world they inherit.

That's why one of our new categories in this year's Earth Month Ecochallenge is Empowering the Next Generation. When youth are supported and encouraged, they can—and do—change the world.

 **Want to learn more?**

Check out [our latest blog post](#) featuring an interview with Nathaniel Rodefer, an emerging leader creating local change in northeast Florida. *(Bonus: it includes both video and audio!)*
